Version 1

Innovation, multi-functionality, cutting edge media and event technology and a sustainable overall concept – this is the offer of the new RheinMain CongressCenter in the heart of Wiesbaden as of April 2018.

Unique architecture, plenty of natural daylight, flexible room planning and premium equipment – these are the trademarks of the new RMCC. Whether conventions or trade fairs, exhibitions or conferences, whether cultural or major society events, live concerts or other stage shows - the RMCC provides the perfect, tailor-made framework for your events for up to 12,500 people!

All of this is in a city centre location and just 30 minutes by car from the international Frankfurt Airport. Hotels, gastronomic diversity, cultural programmes and shopping opportunities surround the RheinMain CongressCenter. Many parks create a unique feel-good atmosphere and round off the stay in Wiesbaden! (133 words)

Version 2

The RheinMain CongressCenter stands for innovation, multifunctionality, cutting edge media and event technology and a sustainable overall concept.

The RheinMain CongressCenter, which opened its doors in April 2018, is awarded the German Sustainable Building Council (DGNB e. V.) platinum certificate. The RMCC is comprised of two flexible and functional halls with adjoining foyers on some 10,000 sqm on the ground floor. There is a 2,400 sqm hall and several break-out areas and boxes with a capacity of 20 – 280 sqm on the upper floors.

The flexible space concept enables several events to be held in parallel with separate access and their own infrastructure – using state-of-the-art media and event technology. (109 words)
